Making A Difference

OUR MISSION

GPMS works to strengthen the Glover Park business economy. Our mission is to support & promote local, small business by increasing vitality on the corridor, improving the streetscape, and creating a distinct sense of place in the city.

4

Building facades
improved & painted

In our first year of operation, GPMS served small and local businesses by supporting them through the coronavirus response. In year two, we had a lot of work to do.

In addition to continuing to help fund and sustain Glover Park businesses through the COVID-19 pandemic, GPMS worked to start created a sense of place in the neighborhood. We funded, designed, and installed thirty streetlight banners, brightening the avenue and increasing name recognition with passersby.

Additionally, GPMS planned and renovated four exterior building facades! We started with the gas station, the neighboring dry clear, headed to Sprig & Sprout, and finished the building next store. Glover Park got a facelift!
